

FSHP 41st ANNUAL MEETING

August 3-5, 2007

Disney's Coronado Springs Resort, Orlando, FL

The Pursuit of Excellence: Leading Our Profession

Program Information

MEETING INFORMATION

REGISTRATION

Thursday, August 2nd	12:30p.m. - 5:00p.m.
Friday, August 3rd	6:00a.m. - 4:45p.m.
Saturday, August 4th	6:30a.m. - 4:45p.m.
<i>(Registration Desk closed 12:00p.m.-1:00p.m. on Friday and Saturday)</i>	
Sunday, August 5th	7:00a.m. - 11:30a.m.

BADGES

Official registration badges **must be worn at all times**. Badges are required for admittance to all Annual Meeting educational sessions and exhibits.

MEETING LOCATION

All meeting sessions and exhibits will be held in *Disney's Coronado Springs Resort Convention Center*.

EXHIBIT PROGRAM

The exhibit program will be held in **Veracruz C** of the Convention Center. Remember, the success of the Annual Meeting depends, in a large part, on the participation and support of the pharmaceutical and related industries. Please take time to visit the exhibit area and express thanks to those company representatives for their participation. Additionally, please thank the local representative whom you see regularly in your practice site. **Exhibit Hours: Friday, August 3rd & Saturday, August 4th 11:00a.m. - 2:00p.m.**

FSHP RESEARCH & EDUCATION FOUNDATION RAFFLE

Support the FSHP Research and Education Foundation by stopping by the FSHP Foundation raffle table. The items to be raffled will be in the exhibit hall during the exhibit program. Winners will be announced on Saturday, August 4th at 1:15p.m. in the exhibit hall. **You must be present to win!**

As you check out the raffle items on Saturday, enjoy the sundae station set up near the Foundation raffle table at 12:30p.m.

POSTER PRESENTATIONS

Poster presentations will be held on Friday, August 3rd from 11:00a.m. - 2:00p.m. Posters will be available for viewing during and after judging. Posters will be located in the exhibit hall.

PAST PRESIDENT'S LUNCHEON

The Annual Past President's Luncheon will be held on Friday, August 3rd starting at 11:30a.m. in **Fiesta 7** of the Convention Center. All Active FSHP Past Presidents are welcome.

FSHP RESIDENCY SHOWCASE

Here's your chance to talk with preceptors and program directors from pharmacy residency programs throughout Florida. Learn right from the source about what each program has to offer. The Residency Showcase provides the opportunity to learn about the many diverse and exciting residency programs offered in Florida, and preceptors and program directors will be available in the Residency Showcase (outside of the exhibit hall) to answer questions regarding their programs.

PRESIDENT'S AWARDS/NETWORKING RECEPTION

On Thursday, August 2nd at 5:30p.m., the social events get underway with the FSHP President's Reception. During the reception congratulate this year's award recipients, FSHP Leadership and Staff and network with colleagues.

TRANSPORTATION

Beginning Friday, August 3rd, buses will transport meeting attendees to and from the convention center. Buses will pick up attendees at the designated bus stops around the hotel and drop off is in front of the Convention Center. The electronic message on the buses will read "FSHP Annual Meeting".

Bus schedule is as follows (*attendees will be notified of changes*):

Friday: 6:00a.m.-6:00p.m.

Saturday: 6:00a.m.-6:00p.m.

FSHP FAMILY NIGHT

ROCK 'N' ROLL BEACH CLUB--PLEASURE ISLAND, DOWNTOWN DISNEY

Saturday, August 4, 2007

6:30p.m.-9:00p.m.

*This year, join us at the Annual Meeting Family Night Event as we celebrate
60 years of Excellence!*

The Family Night is a **PRE-REGISTERED EVENT ONLY**. Only registrants who R.S.V.P.'d and received confirmation for this event are allowed to attend. There are no walk-in spots available.

Surf's Up!!! It's time to hang ten on the Rock 'n' Roll Beach Club dance floor!
We're sure your experience will be ***Unforgettable.***

During this Family Event, you'll hear classic Rock 'n' Roll selections from an interactive Disc Jockey, kids can enjoy arcade games, pool tables, basketball throws and other games, which will be set on FREE play to encourage interaction and friendly competition. Everyone will enjoy a variety of delicious menu options prepared by Disney chefs. After the festivities with FSHP are over...ADULTS are invited to stay and have fun at Pleasure Island with no additional admission fee!

EVENT TIMELINE

- 6:30p.m.** Depart Disney's Coronado Springs Resort
- 6:55p.m.** Guests arrive at Pleasure Island where they are met by Event Guides and escorted to the Rock 'n' Roll Beach Club and enjoy:
- Buffet Dinner
 - Beverage Service
 - Entertainment for all!
- 8:15p.m.** FSHP is saluted with a 60th anniversary cake
- 9:00p.m.** Private event concludes. Guests choosing to remain at Downtown Disney may experience all of the clubs of Pleasure Island until 2:00 am. Regular club rules apply including a minimum age requirement of 21 at all clubs excluding Comedy Warehouse and Adventures Club. Please be prepared to show proof of age. Regular Disney transportation will be available from Downtown Disney to your Disney property.

Downtown Disney Bus Schedule:

- Between Resorts and Downtown Disney Marketplace
Last bus back to Resort leaves at 12 midnight
- Between Resorts and Downtown Disney Pleasure Island/Disney West Side
Last bus from Pleasure Island leaves at 2:00a.m.

SCHEDULE OF EVENTS

THURSDAY, AUGUST 2, 2007

9:30a.m.-5:00p.m. Annual House of Delegates Session

12:30p.m.-5:00p.m. Registration Desk Open
South Registration Desk

5:00p.m. President's Reception (Open to meeting attendees)
Room: Coronado J

FRIDAY, AUGUST 3, 2007

6:00a.m.-4:45p.m. Registration Desk Open
South Registration Desk

6:15a.m.-7:45a.m. (1.0hr GCE) ACPE# 163-000-07-086-L01
(Pre-Registered Symposium)

6:30a.m.-8:30a.m.

Breakfast Kiosks Available (Near Registration Desk)

GENERAL SESSION (7:00a.m.-11:30a.m.) Room: Coronado H

7:00a.m.-8:00a.m. (1.0hr GCE/CRC) ACPE# 163-000-07-087-L04

Safe and Effective Management of Cardiovascular Risk Factors in Solid Organ Transplantation

by: Amy F. Rosenberg, Pharm.D., BCPS, Clinical Specialist in Organ Transplantation/Co-Director Pharmacy Practice Residency Program, Shands at the University of Florida, Gainesville, FL

At the conclusion of this lecture, attendees should be able to:

1. Describe the unique mechanisms of post transplant diabetes, hypertension and hyperlipidemia.
2. Describe the unique safety concerns for transplant patients receiving treatment for diabetes, hypertension and hyperlipidemia.
3. Propose the safest and most effective treatment strategies for diabetes, hypertension and hyperlipidemia.

8:00a.m.-9:00a.m. (1.0hr GCE/CRC) ACPE# 163-000-07-088-L04

The Promise of Pharmacogenetics to Clinical Pharmacy. Hope or Hype?

by: Elvin T. Price, Pharm.D., Staff Pharmacist/PhD Student Clinical Pharmaceutical Sciences, Shands at the University of Florida/University of Florida College of Pharmacy, Gainesville, FL

At the conclusion of this lecture, attendees should be able to:

1. Provide an introduction to the history & principles of pharmacogenetics.
2. Describe progress from bench side discoveries to clinical practice.
3. Provide information on currently utilized pharmacogenetics tools.
4. Provide insight on the future of pharmacogenetics.

KEYNOTE PRESENTATION

9:15a.m.-10:15a.m. (1.0hr GCE/CRC) ACPE# 163-000-07-089-L04

**LEADERSHIP IN HEALTH-SYSTEM PHARMACY:
INVENTING OUR FUTURE**

by: William A. Zellmer, BS Pharm, MPH, Deputy Executive Vice President, American Society of Health-System Pharmacists (ASHP)

At the conclusion of this lecture, attendees should be able to:

1. Identify the key internal factors that have led to progress in hospital and health-system pharmacy over the past 50 years.
2. Discuss three implications of "personalized medicine" that are emerging from breakthroughs in genomics and proteomics.
3. Discuss three elements of a recommended strategy for advancing pharmacy practice in light of the current challenges faced by the hospital industry.
4. Identify three reasons why it is important to standardize the preparation of pharmacy technicians nationwide.
5. Identify a personal list of actions that will help advance health-system pharmacy.

10:15a.m.-10:30a.m. BREAK

10:30a.m.-11:30a.m. (1.0hr GCE/CRC) ACPE# 163-000-07-090-L01
New Drugs Update

by: Marcos Viera, Pharm.D., Clinical Hospital Pharmacist, Jackson Memorial Hospital-Pharmacy Services, Miami, FL
At the conclusion of this lecture, attendees should be able to:

1. Describe the pharmacology, therapeutic uses, drug interactions and dosing of selected newly marketed medications.
2. Discuss common adverse reactions, contraindications, and precautions associated with routine use.
3. Discuss pertinent monitoring parameters and patient counseling information for the selected medications.
4. Compare and contrast newly approved agents to similar medications that are currently available.

10:30a.m.-11:30a.m. (1.0hr GCE) ACPE# 163-000-07-091-L04

The Joint Commission Medication Management Update for 2008

by: Darryl S. Rich, Pharm.D., MBA, FASHP, Surveyor, The Joint Commission

At the conclusion of this lecture, attendees should be able to:

1. List the five most problematic medication related standards in terms of non-compliance by organizations surveyed in 2007, and the most common reason why each was scored non-compliant.
2. Cite the revised medication management requirements for 2007, including the new interpretation of MM.4.10 for emergency departments and radiology.
3. List the medication-related National Patient Safety Goals requirements for 2007, including how the requirements for compliance can be met, and common reasons for non-compliance.
4. List 6 key strategies for the improving compliance with the National Patient Safety Goals.
5. Describe potential changes to the National Patient Safety Goals for 2008.

11:00a.m.-2:00p.m. Exhibits Open/Poster Session
(in Exhibit Hall)

11:30a.m. Lunch Kiosks Available
(in Exhibit Hall)

11:30a.m. Past President's Luncheon
Room: Fiesta 7

AFTERNOON CONCURRENT SESSIONS (1:30-4:45p.m.)

TRACK 1-ADMINISTRATION I Room: Monterrey

1:30p.m.-2:30p.m. (1.0hr GCE/CRC) ACPE# 163-000-07-092-L04

What's the Matter? Dealing With Difficult People

by: Pamela Leslie, BS Pharm, CEO/Director of Educational Development Services, The Phirm, Inc, Brandon, FL

At the conclusion of this lecture, attendees should be able to:

1. Associate natural physiological principles to the dynamics of psychological behavior within the parameters of management.
2. Acquire skills to mitigate and diffuse potential opportunities for spontaneous confrontation to erupt.
3. Develop effective approach in isolating concealed and underlying concerns which mask actual issues and create distractions for resolving conflict.

2:30p.m.-3:30p.m. (1.0hr GCE/CRC) ACPE# 163-000-07-093-L04

Communicating Change: Enrolling Others in On-Going Change

by: Louis Benson, PhD, President and CEO of Treasure Coast Hospices, Stuart, FL

At the conclusion of this lecture, attendees should be able to:

1. Present a positive, systematic approach to communicate change.
2. Develop a future-oriented strategy to accelerate change.
3. Review strategies for dealing with emotional resistance.
4. Present ways to Communicate Control, Constancy, Commitment, and Calmness.

SCHEDULE OF EVENTS

3:30p.m.-3:45p.m. BREAK

3:45p.m.-4:45p.m. (1.0hr GCE/CRC) ACPE# 163-000-07-094-L04

Leadership and Mentoring Strategies in Hospital Administration

by: Vincent Johnson, MBA, FACHE, Vice President, Shands Jacksonville Medical Center, Jacksonville, FL

At the conclusion of this lecture, attendees should be able to:

1. Understand the value of mentorships.
2. Describe the characteristics of a mentor.
3. Differentiate between formal and informal mentorships.
4. Recognize when the relationship is or is not working.

TRACK 2–WOMEN’S ISSUES

Room: Coronado H

1:30p.m.-2:30p.m. (1.0hr GCE/CRC) ACPE# 163-000-07-095-L04

Menopause

by: Katherine Vogel, Pharm.D., Clinical Pharmacist, N. Florida/S. Georgia VA Hospital, Gainesville, Florida

At the conclusion of this lecture, attendees should be able to:

1. Describe the pathophysiology of menopause.
2. Recognize signs and symptoms of premenopause, perimenopause, and postmenopause.
3. Discuss treatment options for symptoms associated with menopause.
4. Examine recent data and guidelines for the management of menopausal symptoms.

2:30p.m.-3:30p.m. (1.0hr GCE/CRC) ACPE# 163-000-07-096-L01

Overview of Contraception Options

by: Jaclyn Graham, Pharm.D., BCPS, Clinical Ambulatory Care Pharmacist Specializing in Primary Care and Women’s Health, Bay Pines VA Healthcare System, St. Petersburg, FL

At the conclusion of this lecture, attendees should be able to:

1. Discuss how to assess a patient prior to initiating contraceptive therapy.
2. Review hormonal and non-hormonal options for contraception.
3. Recognize side effects, contraindications, administration, and drug interactions with the various forms of contraception.
4. Review therapeutic options for emergency contraception.
5. Recommend an adequate daily intake of calcium and vitamin D.

3:30p.m.-3:45p.m. BREAK

3:45p.m.-4:45p.m. (1.0hr GCE/CRC) ACPE# 163-000-07-097-L04

Bone-Up on Osteoporosis

by: Sondra Adkinson, CRPh, BSPH, Pharm.D., CGP, FAAPM, Clinical Pharmacy Specialist - Pain Management, Bay Pines VA Healthcare System Bay Pines, FL

At the conclusion of this lecture, attendees should be able to:

1. Review the prevalence, risk factors, types of fractures with osteoporosis.
2. Discuss the importance of assessment & early diagnosis of osteoporosis
3. Identify the DXA as the most reliable diagnostic testing method.
4. Review the current drug therapy options for treatment of osteoporosis.

TRACK 3–ONCOLOGY

Room: Fiesta 6

1:30p.m.-2:30p.m. (1.0hr GCE/CRC) ACPE# 163-000-07-098-L04

Utilizing Targeted Therapies in the Management of Breast Cancer

by: Judy Ashe, Pharm.D., Oncology Clinical Pharmacist/Clinical Assistant Professor, Shands Jacksonville Medical Center/University of Florida College of Pharmacy, Jacksonville, FL

At the conclusion of this lecture, attendees should be able to:

1. Discuss available targeted therapies in the treatment of breast cancer.
2. Review the impact of the addition of targeted therapies on patient outcomes.
3. Discuss the impact of targeted therapies on safety, cost & quality of life.

2:30p.m.-3:30p.m. (1.0hr GCE/CRC) ACPE# 163-000-07-099-L04

Update on the Treatment of Colorectal Cancer

by: Dina Dumercy, Pharm.D., BCOP, Clinical Pharmacist, University of Miami - Miller School of Medicine/Sylvester Cancer Center, Miami, FL

At the conclusion of this lecture, attendees should be able to:

1. Describe colorectal cancer screening, diagnosis and treatment strategies.
2. Discuss the new pharmacological agent for the management of colorectal cancer and their current place in therapy.
3. Devise and communicate appropriate plans for preventing, monitoring, and treating common adverse reactions associated with treatment of colorectal cancer.

3:30p.m.-3:45p.m. BREAK

3:45p.m.-4:45p.m. (1.0hr GCE/CRC) ACPE# 163-000-07-100-L01

Update in Leukemia: Top Ten Recent Developments in the Management of Leukemia

by: Laura E. Wiggins, Pharm.D., BCOP, Clinical Specialist, BMT/Leukemia Service, Shands Hospital at the University of Florida/Clinical Assistant Professor, University of Florida, College of Pharmacy, Gainesville, FL

At the conclusion of this lecture, attendees should be able to:

1. Review alternatives for overcoming imatinib resistance in patients with CML.
2. Discuss the role of arsenic in the initial management of patients with APL.
3. Describe the application of epigenetic therapy in patients with AML.
4. Explain the role of monoclonal antibodies in the treatment of patients with CLL.

TECHNICIAN TRACK Room: Yucatan

1:30p.m.-2:30p.m. (1.0hr GCE) ACPE# 163-000-07-123-L02

HIV/AIDS

by: Lisa Vandervoot, Pharm.D., Orlando Facilitator, University of Florida College of Pharmacy, Orlando, FL

At the conclusion of this lecture, attendees should be able to:

1. Describe the changing face of HIV.
2. Compare the advantages and disadvantages of newer HIV medications to established agents.
3. Identify the long term effects of HIV treatment.
4. Describe the place of the HIV vaccine in therapy.

2:30p.m.-3:30p.m. (1.0hr GCE) ACPE# 163-000-07-124-L04

Basic Principles of Parenteral Nutrition Therapy

by: Gerald Schmidt, Pharm.D. BCNSP, Nutrition Specialist, Shands Jacksonville, Jacksonville, FL

At the conclusion of this lecture, attendees should be able to:

1. Understand how to determine caloric requirements in parenteral nutrition patients.
2. Discuss the differences between 2:1 parenteral nutrition solutions and total nutrient admixtures (TNA).
3. Understand the differences between peripheral and a central parenteral nutrition solution.
4. Understand the indications for parenteral nutrition.

3:45p.m.-4:45p.m. (1.0hr GCE) ACPE# 163-000-07-125-L04

Drug Jeopardy

by: Leah Rubiano, CPhT, Pharmacy Tech Instructor, Westside Tech, Apopka, FL

At the conclusion of this lecture, attendees should be able to:

1. Identify the top 50 retail selling drugs.
2. Discuss the drug class and use for the top 50 retail selling drugs.
3. Identify a new technique to help themselves and others gain new drug knowledge through “Drug Jeopardy”.

7.0 HOURS OF CONTINUING EDUCATION ON FRIDAY

SCHEDULE OF EVENTS

SATURDAY, AUGUST 4, 2007

6:30a.m.-4:45p.m. **Registration Desk Open**
South Registration Desk

6:30a.m.-8:30a.m. **Breakfast Kiosks Available**

7:00a.m.-8:45a.m. (2.0hrs GCE/CRC) *ACPE# 163-000-07-101-L04*

Room: Coronado H

Reducing Medication Errors Through Implementing a Continuous Quality Improvement Program (approved for required 2.0hr Med Errors)

by: Michael Jackson, RPh, Executive Vice President and CEO, Florida Pharmacy Association, Tallahassee, FL

At the conclusion of this lecture, attendees should be able to:

1. Define elements of a Continuous Quality Improvement Program.
2. Restructure a pharmacy practice to address quality related events.
3. Analyze some common causes of quality related events.
4. Implement an action plan to address quality of care in pharmacies with a goal towards error reduction and prevention.
5. Recite quality improvement regulations for Florida pharmacies.
6. Implement programs to improve patient safety in pharmacy healthcare systems.

MORNING CONCURRENT SESSIONS (8:45a.m.-12:00p.m.)

TRACK 1-ADMINISTRATION II **Room: Monterrey**

8:50a.m.-9:50a.m. (1.0hr GCE/CRC) *ACPE# 163-000-07-102-L04*

Navigating Regulatory Requirements

by: Michael Deschaine, Pharm.D., MBA, Director of Pharmacy, Lawnwood Regional Medical Center & Heart Institute, Ft. Pierce, FL
At the conclusion of this lecture, attendees should be able to:

1. Describe the intent of the process of medication reconciliation as recommended by the regulatory agencies.
2. Review available data and references that provide insight in to the cause of medications errors and how the medication reconciliation process is intended to reduce these errors.
3. Present/discuss several patient cases of successful med reconciliation.
4. Present and discuss several cases of unsuccessful medication reconciliation and discuss how the process can function as the root cause of additional medication errors and internal process inefficiency.
5. Describe implementation strategies for pharmacy compliance with order profile review in ancillary departments such as radiology and respiratory therapy.
6. Describe the planning and implementation steps that should be considered to meet compliance with the 2007 patient safety goal: pharmacist review of medication orders from the Emergency Department.

9:50a.m.-10:00a.m. BREAK

10:00a.m.-11:00a.m. (1.0hr GCE/CRC) *ACPE# 163-000-07-103-L04*

Pharmacy Cost Containment Strategies

by: Christine Price, Pharm.D., Clinical Coordinator/Pharmacy Practice Residency Director, Morton Plant Mease Healthcare, St. Petersburg, FL

At the conclusion of this lecture, attendees should be able to:

1. Discuss clinical pharmacy programs that yield maximum financial benefits without compromising patient care.
2. Review the techniques and strategies of pharmaceutical cost containment initiatives.
3. Identify key initiatives developed: common respiratory canisters, IV to PO, Xigris, blood products (i.e., NovoSeven), IVIG, epoetin alpha, therapeutic dose interchange of antibiotics (Zosyn, Flagyl, Clindamycin, Vanco), surgical prophylaxis and automatic renal adjustments.
4. Explore and discuss cost initiatives that other institutions in the audience have had success with.

11:00a.m.-12:00p.m. (1.0hr GCE/CRC) *ACPE# 163-000-07-104-L04*

Quality Improvement for Pharmacists: A FMEA Case Study in Surgical Site Infection Prevention

Using a Case Example of Improving the Surgical Antibiotic Prophylaxis Process in a Hospital Setting:

by: Mark Newnham, Pharm.D., BCPS, BCNSP, Clinical Coordinator, Lawnwood Regional Medical Center and Heart Institute, Ft. Pierce, FL & Marjorie Humphrey, RN, BSN, CPHQ, Director of Quality Management, Lawnwood Regional Medical Center and Heart Institute, Ft. Pierce, FL

At the conclusion of this lecture, attendees should be able to:

1. Describe the formation of an interdisciplinary process improvement team to conduct a Failure Mode Effect and Criticality Analysis (FMEA) and the members who would be invited.
2. Discuss the development of a flow chart for the process to be improved.
3. Describe the process that the team would use to discover failure modes within the process.
4. Discuss the methodology used to determine the RPN score for each failure mode. The RPN score is used to rank the level of risk from each possible failure mode based on frequency, severity and ability to detect each failure mode occurrence.
5. Provide mitigation strategies for the highest RPN score failure modes.
6. Describe data collection and analysis tools used to measure the process before and after the implementation of strategies designed to reduce the RPN score.

TRACK 2-LONG TERM CARE

Room: Fiesta

8:50a.m.-9:50a.m. (1.0hr GCE/CRC) *ACPE# 163-000-07-105-L04*

Regulatory Updates for Long Term Care Facilities

by: Dante Kazerounian, Pharm.D., CPh, NPh Independent Consultant, St. Petersburg, FL

At the conclusion of this lecture, attendees should be able to:

1. Discuss the Center for Medicare and Medical services revision of the interpretive guidelines.
2. Explain the importance of clinical documentation and clinical protocols related to the new guidelines.
3. Recognize the importance of the consultant pharmacists in the long term care facilities.

9:50a.m.-10:00a.m. BREAK

10:00a.m.-11:00a.m. (1.0hr GCE/CRC) *ACPE# 163-000-07-106-L01*

Pharmacotherapy Update in Dementia and Alzheimer's

by: Daniel Maison, MD, Medical Director, Treasure Coast Hospices, Stuart, FL

At the conclusion of this lecture, attendees should be able to:

1. Discuss the clinical findings of moderate to advanced dementia.
2. List and describe the main classes of medications used in the treatment of alzheimer's disease.
3. Discuss the potential challenges and opportunities of treating alzheimer's disease in the Long Term Care setting.

11:00a.m.-12:00p.m. (1.0hr GCE/CRC) *ACPE# 163-000-07-107-L01*

Appropriate Antipsychotic Use in Long Term Care

by: Daniel Maison, MD, Medical Director, Treasure Coast Hospices, Stuart, FL

At the conclusion of this lecture, attendees should be able to:

1. List the main classes of antipsychotic meds used to treat patients in the Long Term Care setting.
2. Discuss the challenges of using these meds in this patient population.
3. Discuss the potential benefits of a close collaboration between the clinical consultant pharmacist and the physicians in the Long Term Care setting.

SCHEDULE OF EVENTS

TRACK 3—INFECTIOUS DISEASES Room: Coronado H

8:50a.m.-9:50a.m. (1.0hr GCE/CRC) ACPE# 163-000-07-108-L04

The Changing Landscape of MRSA Infections

by: Benjamin Epstein, Pharm.D., BCPS, Assistant Professor of Pharmacy and Medicine, Department of Pharmacy Practice and Division of Internal Medicine, University of Florida College of Pharmacy and Medicine, Gainesville, FL

At the conclusion of this lecture, attendees should be able to:

1. Review the epidemiology of community-associated MRSA (CA-MRSA) infections.
2. Understand differences between CA-MRSA and traditional, hospital acquired MRSA.
3. Identify the most appropriate strategies for the treatment and prevention of CA-MRSA infections.

9:50a.m.-10:00a.m. BREAK

10:00a.m.-11:00a.m. (1.0hr GCE/CRC) ACPE# 163-000-07-109-L04

Healthcare Associated Pneumonia

by: Phillip Treadwell, Pharm.D., Assistant Director of Clinical Pharmacology, Tallahassee Memorial Healthcare, Tallahassee, FL

At the conclusion of this lecture, attendees should be able to:

1. Know the definition of health care associated pneumonia (HCAP).
2. Discuss the risk factors for the acquisition of HCAP.
3. Describe how pathogens of HCAP differ from those of community acquired pneumonia.
4. Review how to select appropriate antimicrobial therapy for patients with HCAP.
5. Know how to monitor for therapeutic endpoints in HCAP.

11:00a.m.-12:00p.m. (1.0hr GCE/CRC) ACPE# 163-000-07-110-L01

Update on Antibiotic Resistance: Defining the Problem and Implementing Strategies for Improvement

by: John G. Gums, Pharm.D., Professor of Pharmacy and Medicine, University of Florida, Gainesville, FL

At the conclusion of this lecture, attendees should be able to:

1. Discuss the significance and magnitude of antimicrobial resistance and the clinical and economic impact that it has on hospitals.
2. Describe the trends in certain gram-negative and gram-positive resistance trends within the state of Florida.
3. Discuss the value of longitudinal surveillance at a hospital level and the impact of correlating antibiotic utilization to resistance patterns as a mechanism of improving antibiotic use.

11:00a.m.-2:00p.m. Exhibits Open
Residency Showcase
(outside of Exhibit Hall)

11:30a.m. Lunch Kiosks Available
(in Exhibit Hall)

AFTERNOON CONCURRENT SESSIONS (1:30-4:45p.m.)

TRACK 1—CARDIOLOGY Room: Coronado H

1:30p.m.-2:30p.m. (1.0hr GCE/CRC) ACPE# 163-000-07-111-L04

Acute Coronary Syndrome (ACS)

by: William Terneus Jr., Pharm.D., BCPS, Residency Program Director/Clinical Pharmacist, Indian River Medical Center, Vero Beach, FL

At the conclusion of this lecture, attendees should be able to:

1. Distinguish ST-Elevation MI (STEMI) vs. Non-STEMI ACS by pathophysiology, diagnosis, risk stratifications and treatment strategies.

Acute Coronary Syndrome (ACS) objectives continued...

2. Develop a pharmacotherapy treatment plan for patients receiving fibrinolytic therapy and patients undergoing primary percutaneous coronary intervention (PCI) for STE.
3. Develop a pharmacotherapy treatment plan for patients with Non-Ste ACS.

2:30p.m.-3:30p.m. (1.0hr GCE/CRC) ACPE# 163-000-07-112-L04

Cardiac Catheterization Lab: An Update on Pharmacotherapy

by: Amanda Hays, Pharm.D. BCPS, Clinical Pharmacist, Tampa General Hospital, Tampa, FL

At the conclusion of this lecture, attendees should be able to:

1. Determine the role of medications commonly used in the cardiac catheterization lab.
2. Evaluate current literature regarding clinical outcomes and cost-containment.
3. Discuss the evolving literature regarding drug-eluting stents.

3:30p.m.-3:45p.m. BREAK

3:45p.m.-4:45p.m. (1.0hr GCE/CRC) ACPE# 163-000-07-113-L04

Acute Myocardial Infarction (AMI) Quality Measures/Discharge Management

by: Mariluz Sanchez, Pharm.D., Clinical Hospital Pharmacist, Cardiology, Jackson Memorial Hospital/Pharmacy Services, Miami, FL

At the conclusion of this lecture, attendees should be able to:

1. Define what core performance measures stand for.
2. Describe Acute Myocardial Infarction Specific Core Measures.
3. Discuss some examples in how to implement AMI Core Measures/discharge.
4. Identify barriers for implementation initiatives.
5. Discuss some strategies for performance improvement.

TRACK 2—AMBULATORY CARE Room: Fiesta 6

1:30p.m.-2:30p.m. (1.0hr GCE/CRC) ACPE# 163-000-07-114-L04

Pathogenesis of the Metabolic Syndrome

by: Kevin B. Sneed, Pharm.D., Associate Professor, Clinical Pharmacotherapist, Florida A & M University College of Pharmacy, Tampa, FL

At the conclusion of this lecture, attendees should be able to:

1. Briefly discuss the pathophysiology of the Metabolic Syndrome.
2. Review risk factors associated with hyperlipidemia using ATP III
3. Discuss the rationale of pharmacologic therapy of hyperlipidemia, and the benefits with regard to vascular inflammation.
4. Review new treatment options for hyperlipidemia using combination therapy.
5. Discuss key counseling points for patients using combination therapy for the treatment of hyperlipidemia.

2:30p.m.-3:30p.m. (1.0hr GCE/CRC) ACPE# 163-000-07-116-L04

Weight Loss Products

by: Carol Motycka, Pharm.D., Assistant Dean/Campus Director/Clinical Assistant Professor, University of Florida College of Pharmacy, Jacksonville, FL

At the conclusion of this lecture, attendees should be able to:

1. Understand who to treat with non-pharmacological and pharmacological interventions.
2. Review non-pharmacological interventions.
4. Discuss non-prescription treatments currently available to patients including herbal supplements.
5. Discuss prescription treatments currently available to patients.
6. Review treatments on the horizon.

SCHEDULE OF EVENTS

3:30p.m.-3:45p.m. BREAK

3:45p.m.-4:45p.m. (1.0hr GCE/CRC) ACPE# 163-000-07-115-L04

New Advances in the Pharmacotherapy of Diabetes

by: Kimberly Schnacky, Pharm.D. BCPS, Clinical Coordinator, Orlando VA Medical Center, Orlando, FL

At the conclusion of this lecture, attendees should be able to:

1. Revisit the pathophysiology of diabetes and be able to optimize drug therapies related to each physiologic dysfunction of the diabetic patient.
2. Become familiar with the newer agents available to manage diabetes inclusive of mechanism of action, place in therapy, optimal timing of initiation, and expected outcomes.
3. Communicate to the healthcare team related to these new medications as applicable to their own patients in the clinical setting.

TRACK 3-GASTRO INTESTINAL Room: Monterrey

1:30p.m.-2:30p.m. (1.0hr GCE/CRC) ACPE# 163-000-07-117-L04

Clostridium difficile: What is New and Why Do We Care?

by: Christine Hansen, Pharm.D., Clinical Specialist in Infectious Diseases, Shands at the University of Florida, Gainesville, FL

At the conclusion of this lecture, attendees should be able to:

1. Review the history and pathophysiology of Clostridium difficile-associated disease (CDAD) and historical data regarding treatment.
2. Highlight the impact of CDAD on clinical and economic outcomes.
3. Discuss current issues regarding epidemiology and microbiology.
4. Summarize current literature regarding newer treatment options.

2:30p.m.-3:30p.m. (1.0hr GCE/CRC) ACPE# 163-000-07-118-L04

Foodborne Illness: Recent Outbreaks, Potential Contributors, and Prevention

by: Shawn Anderson, Pharm.D., Postdoctoral Fellow, University of Florida Department of Pharmacy Practice, Gainesville, FL

At the conclusion of this lecture, attendees should be able to:

1. Highlight recent foodborne illness outbreaks across the United States.
2. Discuss antibiotic and antibacterial use and its association with pathogens transmitted through food.
3. Describe possible methods of prevention of foodborne illness.

3:30p.m.-3:45p.m. BREAK

3:45p.m.-4:45p.m. (1.0hr GCE/CRC) ACPE# 163-000-07-119-L04

Hepatitis C

by: Nikolaos T. Prysopoulos, MD, PhD, Director Hepatology, Medical Director Liver Transplantation, Florida Hospital, Orlando, FL

At the conclusion of this lecture, attendees should be able to:

1. Identify Hepatitis C (HCV) as with the most common forms of viral hepatitis and the most common cause leading to liver transplantation.
